What's your decision?

Last week's Question Answered:

With the cue ball in hand after a foul, is it a free ball if you can see both sides of the object ball from different places in the D? If the cue ball cannot hit both sides of an object ball, without hitting another ball not on first, from a single position within the lines of the "D", it is a free ball.

Section 2, rule 17

This week's Question

When a striker fouls and the cue ball stops in a position where the curved face of the cushion obstructs the object ball, is it a snooker and therefore a free ball awarded?

## Ladder

Teams	Frames	%
1 Turkeys	20	164%
2 Wackers	14	126%
3 Warriors	13	99%
4 Lodge	13	98%
5 Falcons	13	91%
6 Cannons	13	87%
7 Gnomes	11	111%
8 Avengers	11	80%
9 Bowlers	10	82%
10 Ducks	8	96%
11 White Hart	6	79%
