What's your decision?

Last week's Question Answered:

If the cue ball and the object ball are almost touching, how do you avoid playing a push shot and causing a foul stroke? It shall NOT be deemed a push stroke if the cue-ball hits a very fine edge of the object ball. So playing "across" the object ball instead of directly towards it is a clear shot incurring no penalty.

Section 2, rule 19(b)

This week's Question

What is a jump shot and is it a foul?
